Dear Ms. Crown,

Unfortunately I am unable to attend the forum on 7 Nov., but I want to let you know of my strong support for metric-only labeling. Indeed, manufacturers should be, if not compelled, at least strongly encouraged to state the package contents in (preferably round) SI units. It will make comparison shopping so much easier and at the same time let us develop a feeling for the units involved (mainly L, kg).

Best wishes,
George Hauck
